Clinicians will contact any previous providers to confirm prior treatment programs, medications, pertinent mental health histories, and to obtain suggestions for further treatment in compliance with HIPPA standards. To ensure the safety of the offender, a Qualified Mental Health Professional (QMHP) will provide a full mental health assessment within the following timeframes.

- **Emergent**: For any acutely suicidal or psychotic offenders identified during the intake process as needing immediate medical/psychiatric attention. The offender will be placed on suicide watch until more suitable arrangements can be made and conduct a complete mental health assessment.

- **Urgent**: Offenders who are not in acute distress but who (a) present with serious mental health issues; (b) are deemed a heightened suicide risk; and/or are taking psychotropic medication other than standard sedatives or hypnotics; health care staff will respond within 24 hours, with a QMHP or psychiatrist conducting a complete mental health assessment within 24 to 72

As part of the comprehensive, one-to-one encounter, the QMHP will examine the inmate’s current mental status, asking the patient about his or her history of suicidal ideation and suicide gestures or attempts, and probing for any current situational stressors that could trigger an event.

The psychologist or other QMHP will check the inmate’s level of intellectual functioning e.g., mental retardation, other developmental disability, etc. Attempts to communicate and coordinate with community mental health providers who treated the inmate prior to incarceration will be done to the extent it does not negatively impact the facility operations. The QMHP will attempt to obtain a signed release from the inmate in order to request additional health information from the patient’s community provider. A signed statement stating why the patient will not release the information will be provided.

Through the mental health process the psychiatrist will review the initial diagnosis, and if further treatment is required, the psychiatrist will develop an individualized treatment plan for the patient, to include therapy, tests, and other examinations as appropriate. Each individualized treatment plan will identify also a specific interval and duration for the follow-up care, which in no case will occur less often than every ninety (90) days.

Inmates will be provided with the information necessary to determine consent or refusal for any treatment, examination, or procedure including mental health service and psychotropic medications. “Informed consent” is defined as consent voluntarily given by an
inmate, in writing, after he or she has been provided with a conscientious and sufficient explanation of the proposed treatment. Inmates are to be advised of the limits of confidentiality prior to their receiving any mental health services. With the exception of mental health emergencies, the QMHP will obtain an informed written consent from each inmate prior to initiating psychotropic medication treatment. Consent forms will be placed in the inmate’s medical record.

Before initiating pharmacological intervention, the mental health staff will complete at least a brief history and mental status examination to determine that the inmate (a) has a basic understanding that he or she has a basic understanding that he or she has a mental health problem, (b) understands that medication is being offered to produce relief from that problem, and (c) is able to give consent to treatment. The inmate may withdraw consent at any time without compromising access to health care. An informed consent will be obtained each time the inmate is prescribed a new psychotropic medication.

II. Individualized Treatment Plans

Each inmate identified as requiring mental health services, the psychiatrist will develop an individualized treatment plan upon a mental health case being opened. The plan will be developed by a multidisciplinary treatment team comprised of psychiatrist, medical director, mental health clinician, and nursing staff with support and input from the inmate and jail representatives, as necessary. The plan will:

- Reflect the inmate’s current mental health status and needs based on his or her psychosocial assessment, diagnosed mental disorders, and functional strengths and limitations attributable to mental disorders.
- Identify any mental health problems that may negatively impact the inmate’s ability to adjust to incarceration.
- Outline achievable, time-limited objectives (written measurable terms) that may reduce symptoms, enhance current functioning, or maintain current functioning.

The responding mental health professional and/or psychiatrist will rapidly assess the immediate needs of the inmate, working close with security staff to ensure the inmate’s safety and security, as well as that of staff, other inmates, and the facility. 2. The contractor will include the provisions of:

C. ANTI-TRUST: By entering into a contract, the contractor conveys, sells, assigns, and transfers to Western Tidewater Regional Jail all rights, title and interest in and to all causes of the action it may now or hereafter acquire under the antitrust laws of the United States, relating to the particular goods purchased or acquired by Western Tidewater Regional Jail under the said contract.

D. APPLICABLE LAW AND COURTS: This solicitation and any resulting contract shall be governed in all respects by the laws of the Virginia Public Procurement Act and any litigation with respect thereto shall be brought in the courts of the Commonwealth. Said compensation shall be determined by one of the following methods:
a) By mutual agreement between the parties in writing; or b) By agreeing upon a unit price or using a unit price set forth in the contract, if the work to be done can be expressed in units, and the contractor accounts for the number of units of work performed, subject to WTRJ’s right to audit the contractor’s records and/or to determine the correct number of units independently; or c) By ordering the contractor to proceed with the work and to keep a record of all costs incurred and savings realized. A markup for overhead and profit may be allowed if provided by the contract. The same markup shall be used for determining a decrease in price as the result of savings realized. The contractor shall present Western Tidewater Regional Jail with all vouchers and records of expenses incurred and savings realized. Western Tidewater Regional Jail shall have the right to audit the records of the contractor as it deems necessary to determine costs or savings. Any claim for an adjustment in price under this provision must be

If the parties fail to agree on an amount of adjustment, the question of an increase or decrease in the contract price or time for performance shall be resolved in accordance with the procedures for resolving disputes provided by the Disputes Clause of this contract. Neither the existence of a claim or dispute resolution process, litigation or any other provision of this contract shall excuse the contractor from promptly complying with the changes ordered by Western Tidewater Regional Jail with the performance of the contract generally.

d) The parties may agree in writing to modify the scope of the contract. An increase or decrease in the price of the contract resulting from such modification shall be agreed to by the parties as a part of their written agreement to modify the scope of the contract.
